

## ***Wondering about the Health Care Plan?***

So are you on our Health Care Plan (HCP), and don't know what is really covered? Are you thinking about starting our HCP, but are unsure of what really happens? Let us give you some insight. The HCP is a package of services offered at a reduced rate, because you pay for the entire year at the first appointment. For those of you lucky owners that do not have accident or colic prone horses, that is all you would pay us for the year. These are all of the vaccines and services that are included:

### **Vaccinations**

- 4 Influenza/Rhinopneumonitis
- 2 Eastern & Western Encephalitis
- 2 West Nile Virus
- 1 Rabies
- 1 Potomac Horse Fever
- 2 Tetanus

### **Deworming**

At each quarterly visit

### **Coggins Test**

Yearly, at a scheduled visit

### **Dentistry**

Additional, Flat Rate Fee of \$130

These services are broken up into four visits. We call to remind you that the visits are due; however it is your responsibility to schedule the appointment. There is no farm call for these four visits, if you need any other visits you pay the farm call and normal fees for any other services. HCP's are transferable, but not refundable and can be started at any vaccine visit.

## ***Health Care Plan Special Offer***

Thinking of signing up for the Health Care Plan? Would you like to get your 2011 plan for a reduced price? Then it is your lucky day! We are offering the ***prepaid*** HCP price at \$295 again, which is a savings of \$40 from the regular price of \$335. The entire \$295 must be paid by December 31, 2010. No matter when in 2011 you start the plan, you are eligible as long as the \$295 is paid by the end of the year! This offer is only good for plans that **start in 2011**, not any earlier! All the normal services are included; the price break is the only difference! If you have any questions please feel free to call the office at 321-639-4242.

We wish everyone a safe and happy holiday season and look forward to serving all your equine needs during the New Year.

The last several newsletters have included educational material concerning **Potomac Horse Fever**. This is certainly a disease of concern in Brevard County. We have diagnosed many horses this year. Additionally we have also diagnosed cases of **West Nile Virus** this year. Despite the difficult economy your horses still need protected from these two potentially fatal diseases.

**Christmas Special!!!!!! \$10 off** on both Potomac Horse Fever and West Nile vaccines until **December 31, 2010**.

Proper Dental care is also critical for your horses' health and well being.

We are also offering a **Christmas Dental Special**. If your horse has 1 equine dental a **second dental is half off** for another horse.

This special also runs through **December 31, 2010**

**See us on the web at [www.Newmanequine.com](http://www.Newmanequine.com)**
